Dorian Karter

Experienced Full-Stack Developer

// PROFILE

Over 10 years of experience in development, design, and team leadership.

A true polygot! Self-motivated, driven and organized. Passionate about code and design.

Pursuing a full time position with a reputable company in the software industry.

"I'm a true believer that functionality and design are the ultimate principles to solve any modern-day problem. Solutions to problems should be both elegant and timely, and finding the right balance between all of these components is what makes any work into a true work of art."
